DETAILED ACTION

The Statement of Facts filed 6/24/04 refers to an infringing pouch first discovered to exist on 12/1/03. This application was filed on 10/21/03, approximately 5 weeks prior to the discovery. Applicant is requested to submit any further information concerning the discovery found by applicant subsequent the filing of the Statement of Facts. In particular, does applicant now know the first publication date of the allegedly infringing pouch.

Response to Arguments

Applicant's arguments with respect to claims 1-19 have been considered but are moot in view of the new ground(s) of rejection.

Response to Arguments

Claim Rejections - 35 USC § 103

Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Parsons in view of Richison et al. Parsons discloses in figure 6 the basic pill crusher pouch except for the use of a cup-like bottom for ease of pouring. Richison et al shows a similar bag including the use of a cupped bottom. In order to more easily pour the material, it would have been obvious for one of ordinary skill in the art to modify Parsons by providing a cup shaped bottom, taught to be desirable by Richison et al. Any remaining limitations would then have been obvious design choices only as they solve no stated problems.

Conclusion

Applicant should carefully review the Taheri publication made of record but not used in the rejection.
